Meeting Minutes:

Annual Meeting was held directly after Bill Ross Memorial Swim meeting at Eisenhower Park. Discussion started with a review of procedures and policies that we should reinforce as a result of covid. Clubs and members engaged in lively chatter about continued challenges of pool closures, limited pool availability hours, membership dips, club organizational changes and coaching changes. However, there were lots of questions and excitement over our future and additional swim meet opportunities in the LMSC. We then discussed and voted on the Metro LMSC 2023 budget. Other LMSC discussions were about new LMSC officer positions and opportunities for others to join and volunteer – we're still looking for a local registrar. In closure we all agreed that we are excited to resume normal masters swimming activity, focus on get registration numbers back to pre-pandemic levels and to enjoy our sport.
